SIMONE WEIL AND THE SPECTER OF SELF-PERPETUATING FORCE E. JANE DOERING

“*Simone Weil and the Specter of Self-Perpetuating Force* is a definitive contribution not only to Weil studies, but to any effort to understand the problem of violence and the sources of peace. The study seamlessly blends narratives of Weil’s life and thought during the early twentieth century with those of people, political movements, and events pivoting on the world stage. E. Jane Doering helps to frame a plausible case for the optimism Weil forged in the fire of her own suffering: there is a counterforce to violence, and it is available when we attend to life beyond the delusions we habitually cultivate.”

—Ann Pirruccello, University of San Diego

“This book is a valuable source not only for those interested in the question of force but for anyone who wishes to become better acquainted with a philosopher who, though relatively unknown during her lifetime, is one of the most inexhaustibly rich thinkers of the twentieth century.”

—Christine Evans, Lesley University

“Doering reveals the evolution of our French philosopher’s thought concerning the ‘spirit of justice’ as the fruit of meditation on classical texts from different civilizations as well as purely philosophical reflection. The author of this work brings together in an innovative way the thought of Albert Camus and Simone Weil on force and justice. Doering persuasively shows that Simone Weil offers a spiritual and political key to resolving some of the thorniest problems afflicting our contemporary world.”

—Robert Chenavier, Président de l’Association pour l’étude de la pensée de Simone Weil
